**Faith, Compassion & Climate Action: Love Earth & People**  
**Florida Interfaith Climate Action Network 2016 National Assembly**

- ❖ **Do you seek an audience that takes your group's message to a higher level?**
- ❖ **Do you wish to extend your network among persons of conscience?**
- ❖ **Do you want to amplify your understanding of who else is active on climate issues?**
- ❖ **Will you share your unique mission with other activists?**

This interfaith assembly comes at a pivotal moment in both global and local dialogue on climate change. The Paris Climate Talks (COP 21) have challenged communities to step up local actions dramatically. Impoverishment, injustice, and determinants of ill-health issues are increasingly overlapping with the impact of sea-level rise in Florida. The voices of compassion and concern are coming together to generate community-based engagement that inspires and motivates new policies and practices that reflect human and spiritual values - values that the Florida Legislature need to implement in its upcoming session.

We think your group will want to act on this opportunity to participate in our event in the Orlando-area on January 28-30.

We are assembling people of conscience who honor: stewardship of resources, inclusion of diverse perspectives, education/awareness raising, community resilience, emphasis on proactive planning, and a support for holistic thinking. We have a deep concern for inclusiveness in a just and sustainable world via economic fairness, ecological sustainability, deep democracy, social justice, simple living, and revitalized community.

This gathering is part of an ongoing movement to shift cultural and political perspectives as to the urgency, and need to act now on climate. Our work as climate change conscious people focuses on urging social, religious, and political awareness to prioritize implementing as much mitigation and adaptation as possible, as soon as possible. Join us in claiming a common identity as the compassionate voice for a greener future.

Please join us.

Climate Action Bazaar Sub-Committee  
Florida Interfaith Climate Action Network

Registration for the January 28-30th assembly, including meals, is \$79: <http://interfaithflorida.com/2016>  
Exhibitor Tables can be reserved for \$35. Each organization will be supplied a table and 2 chairs.  
To participate in the Climate Action Bazaar, please contact Jan Booher: [JLBooher@comcast.net](mailto:JLBooher@comcast.net).
